United States

Choose United States

MILLIONS OF PEOPLE EVERY YEAR CHOOSE TO STUDY IN THE USA, AS THE QUALITY OF EDUCATION PROVIDED BY SCHOOLS, COLLEGES, AND UNIVERSITIES IN THE USA IS SOME OF THE HIGHEST QUALITY EDUCATION IN THE WORLD. FOREIGN STUDENTS ARE ATTRACTED BY HIGH ACADEMIC EXCELLENCE, DEMANDED PROGRAMS, AND EMPLOYMENT PROSPECTS.

America's Offerings

American universities are among the top-ranked in the world and offer a huge selection of courses. Most American universities and colleges have close ties with large employers, which allows students to do internships during their studies and find employment soon after graduation.

For a foreign/international student, the USA has a lot to offer:

1. The most prestigious education in the world
2. Eclectic cities and beautiful parks
3. Artistic, cultural, political and sporting events.
4. Very multi-ethnic population.
5. USA is in demand for studying abroad for international students.

Global Education and Long-Term Career Prospects:

The US is home to 16 institutions that are included on the top 20 universities list.

52 US universities are amongst the very best, in the world.

77 American universities are ranked amongst the best two hundred universities in the world

If you've always dreamt of working in a large multinational, go to the US, where 128 of the 500 largest companies in the world are headquartered.

Variety of Educational Opportunities:

With many thousands of study options and campuses, the USA offers a great many study abroad options for students worldwide.

Top-notch excellence: Education Opportunities

Academic Excellence :

U.S. degrees are recognized worldwide for their excellence. It is one of the world's finest university systems, with outstanding programs and research recognized internationally. Students have the opportunity to work directly with some of the finest minds in their field of study, with the chance to become involved with exclusive research and educational opportunities.

CUTTING-EDGE TECHNOLOGY:

For decades now, the USA has led in many areas of cutting-edge technology and research. As a result, students interact with potential and current leaders in their field during the course of study. The USA offers some of the most innovative and path-breaking STEM courses (Science, Technology, Engineering, Math courses).

Opportunity for Research, Teaching and Training:

Research-based learning and education are promoted. If you're looking to challenge yourself intellectually and academically, and you aim to become a research scholar, here are several exciting programs ready for you to study

Flexibility:

Tired of the same old courses? Well, you can reach outside the box too because the US education system provides a lot of flexibility in the courses on offer.

Whether you're a special needs teacher or a general education teacher, maintaining small class sizes means that the students you work with will benefit from more interaction, more engagement, and a greater amount of personal attention which is important.

Scholarships: The fact that United States universities are among the richest in the world is an indicator that meritorious students should be on the receiving end of scholarships and grants.

- **Study in Florida-**

Florida -The Sunshine State
Visit beaches, theme parks, and nature.

If you're looking to study abroad in a resort environment, this is your destination of choice.

- **Study in New York**

New York - One of the world's most exciting cities!

This is where dozens of top-notch colleges and universities are based, offering unlimited opportunities for learning and self-improvement.

Visiting New York is a long-held ambition for many. Broadway, Times Square, Central Park, Wall Street. Studying in New York will be unforgettable.

- **Study in Boston**

Boston - The most intelligent US city, perhaps?

For decades, Boston has provided the extensive experience to students from around the world. It is truly the world student capital. Studying in Boston is prestigious and fun, which comes with having such an energetic student population within the United States of America.

USA'S EDUCATION SYSTEM

American colleges and universities offer three basic programs:

- Associate's Degree – This is an academic program for students who have finished secondary school, which prepares them for a Bachelor's degree. It provides students with the academic and technical knowledge and skills necessary for employment or furthering their education.
- Undergraduate – The length of undergraduate programs in the US is four years, since associate degrees are cheaper than bachelor's degrees, many Americans prefer them.
- Master – Master degrees in the US vary from 1.5 to two years.

Scholarships – SCHOLARSHIPS

Scholarships in the United States can be categorized into two:

Those allocated by universities, those allocated

specifically for students, and those allocated to encourage students. Those allocated to various funds and organizations, public and private. This means that earning a master's degree will be much easier than earning an undergraduate degree. If your academic performance is brilliant, you've taken part in many social events, or you've excelled in sports, you could be considered for a scholarship. Each university has its own fund that is usually financed through alumni contributions. It has a set of rules and requirements.

APPLICATION PROCEDURE:

You must find out all the requirements before applying to a USA institution. Book a free consultation with our international education experts at Xclusive Visionz

Step 1 - Register with Xclusive Visionz and we will build your profile on the basis of your academic qualifications, work experience and interests.

Step 2 - Once assessment is initiated, we will shortlist the desired university and relevant course as per your profile and interest.

Step 3 - Complete application will be submitted to the respective university finalized by you.

Step 4 - We will assist you for visa documentation and acceptance of offer letter

Students applying for the USA are recommended to begin the application procedure at least 8-10 months prior to the intake.

Visa Procedure

Students need to have an F1 visa to study in the USA. This academic student visa is issued to international students who intend to enroll in colleges and universities or join an English language program. You're allowed to remain in the USA for up to 60 days after you've completed your degree unless you have applied and been approved to stay for a limited period under the OPT program

You should only apply for the F visa after receiving your acceptance letter, which states your enrolment.

Read on for a step-by-step process:

Pay the SEVIS fee and visa fee

Fill up your Applicant Form

Book a visa interview appointment

Prepare for the interview

You'll receive your passport with the stamp after a few days.

Book your free appointment with our visa counsellors.
